## Software Requirements Specification

---

### 1) Introduction

#### a. Background

- *Objective/Purpose of conducting a project :*

This Website has been designed to describe my client's coaching class More elaborately . Main purpose of this website is to provide an online platform which facilitates any information about the coaching to the visitors.

Another objective of my website is for those who are interested to become a part of class, they can be reach to the classes from anywhere or can contact us through email or mobile. Website contains all the necessary information in simplest way from which the visitors may understand about class easily.

- *Scope of project :*

This website helps in publicity of class and with this website we will be able to Connect with more & more people and they will know about our school better. The conversation between them (visitors and the class) will be easy through the Website. Through the conversation my client will get knowledge about how they Will increase class facilities, technology and other important things and then Admission will also be increase..

- *Application / Motivation [Why we need to develop this software?] :*

In previous when the class is not available on online; most of the peoples don't Even heard about the class and this is cause for lack of admissions . Also the students who wanted to take admission also had to personally visit the class because there is no website or admission enquiry corner available on online of this class. From the previous method the class couldn't connect with more and more people. The communication between the parents or the visitors and us couldn't be possible in face-to-face, it will waste a lot of time of teachers or the other staff of class. So the website is the solution of there problems, it is time saving for both the visitors as well as the class and also the communication can be done in a better way and more elaborately, it can be beneficial to both my client as well as the visitors of website.

**b. Overview**

- *Overview of your project :*

As it is partially Descriptive the requirements that were specified that is needed to be simple, attractive and informative as well as consist a form which can help their visitors to join them and also admission enquiry corner. It should be as simple as possible but contain necessary information. It should also be attractive so the more and more people will take a look.

**c. Environmental Characteristics :****I. Hardware Requirement**

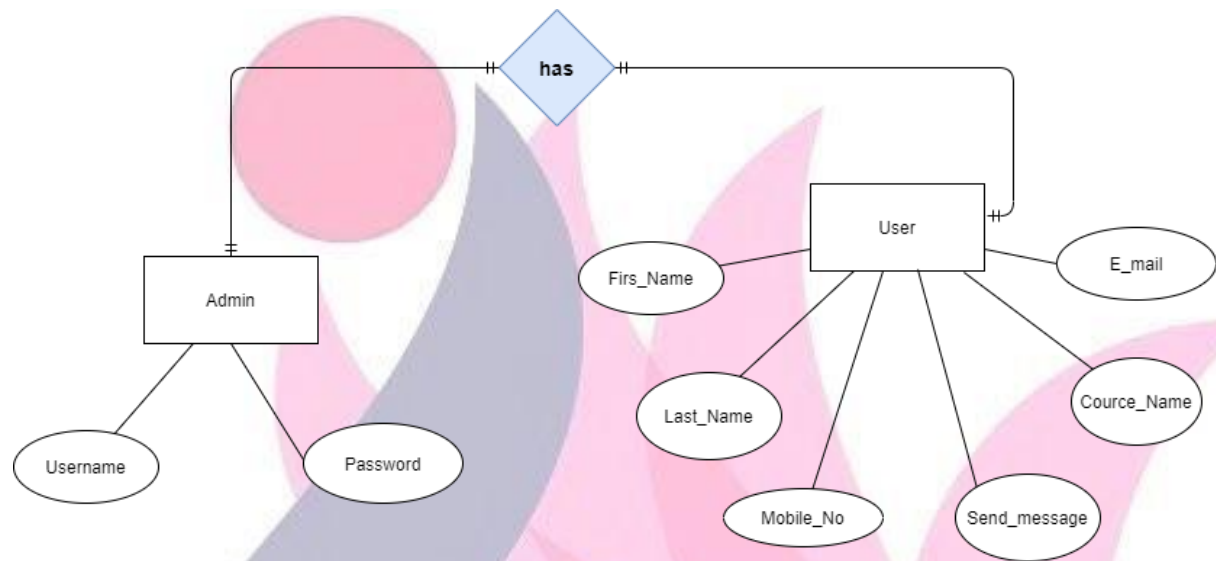

- 64 Bit Processor
- 4GB Memory space

**II. Software Requirement**

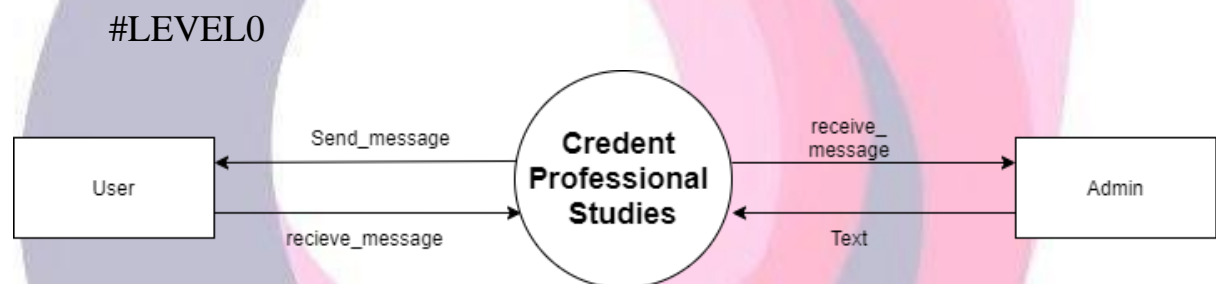

- Xampp Stack
- Visual Studio Code
- Microsoft Edge, Google Chrome

## OUR APPROACH OUR STRATEGIES

**Comprehensive Coverage**

We are known for the widest coverage of the syllabus because we understand that the smallest details can make the biggest difference. Our well-scheduled, in-depth and timely completion of the vast CA syllabus boost the students' confidence and drive them to excel.

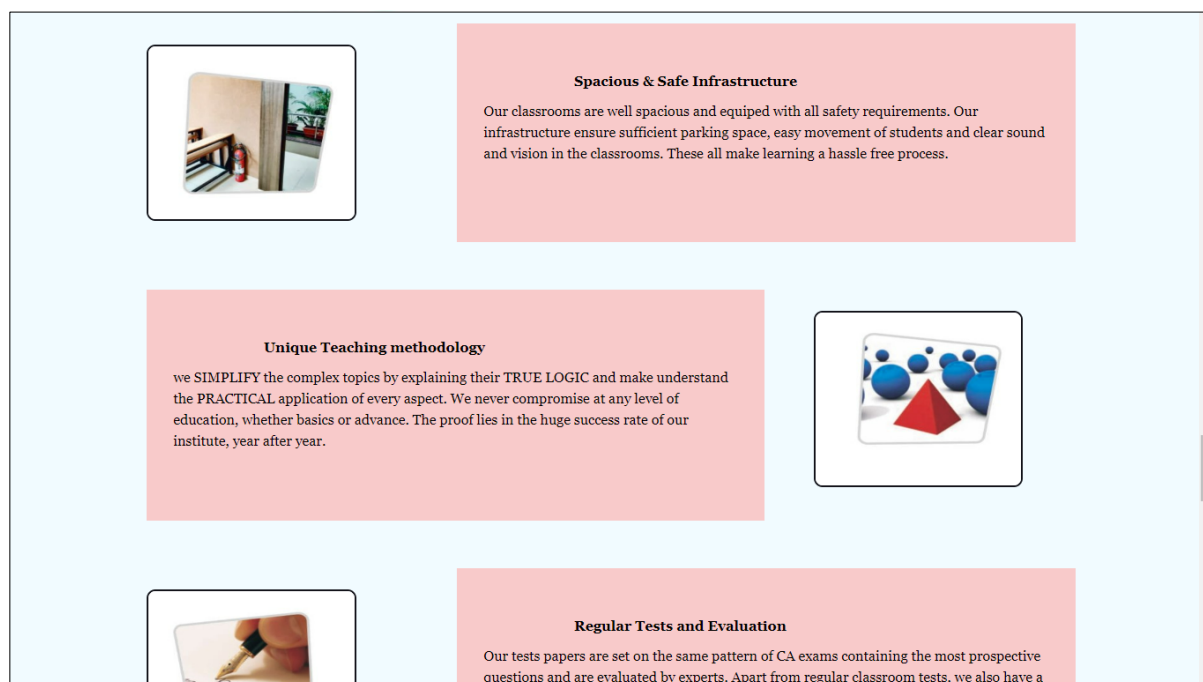

**Every Individual matters**

Our teaching pattern assures that every single point is clear in the minds of students. Students are always welcome to ask questions and discuss openly in our classroom and online also. We remain available to them even outside the classroom to solve their personal doubts.

Home Page (6)

**Spacious & Safe Infrastructure**

Our classrooms are well spacious and equipped with all safety requirements. Our infrastructure ensure sufficient parking space, easy movement of students and clear sound and vision in the classrooms. These all make learning a hassle free process.

**Unique Teaching methodology**

we SIMPLIFY the complex topics by explaining their TRUE LOGIC and make understand the PRACTICAL application of every aspect. We never compromise at any level of education, whether basics or advance. The proof lies in the huge success rate of our institute, year after year.

**Regular Tests and Evaluation**

Our tests papers are set on the same pattern of CA exams containing the most prospective questions and are evaluated by experts. Apart from regular classroom tests, we also have a

### Home Page (7)

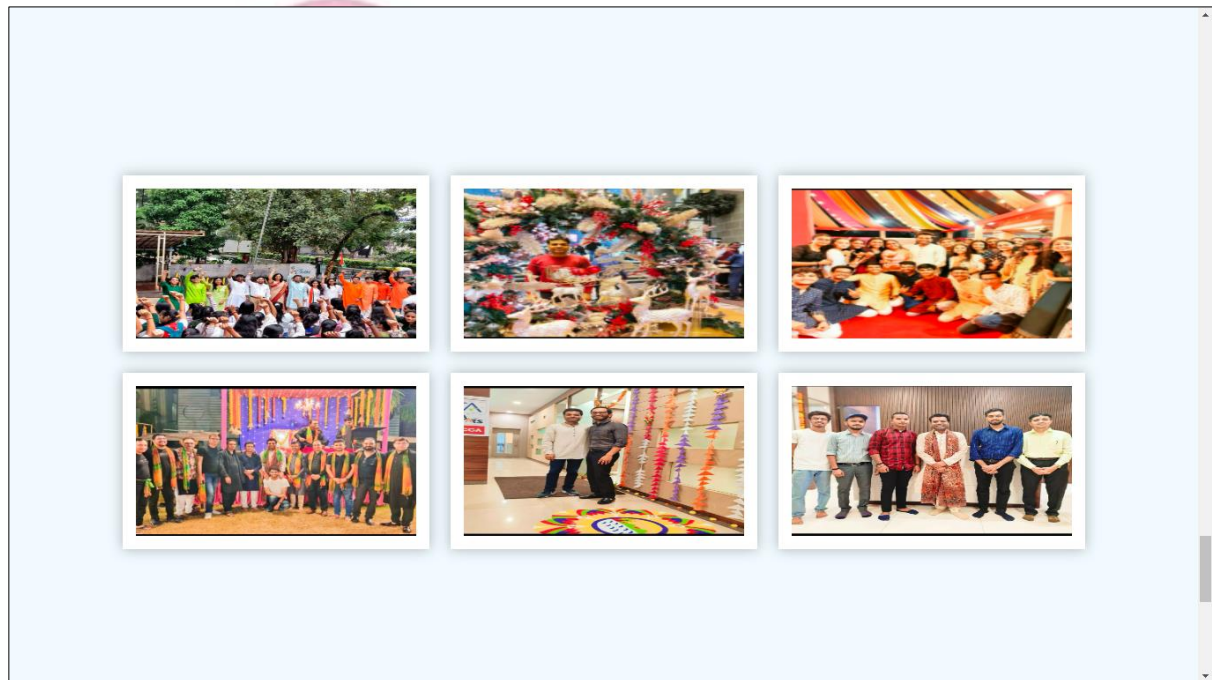

**Regular Tests and Evaluation**

Our tests papers are set on the same pattern of CA exams containing the most prospective questions and are evaluated by experts. Apart from regular classroom tests, we also have a special customised test series to give students enough practice and experience before the actual exams. For online students, we have developed digital paper checking.

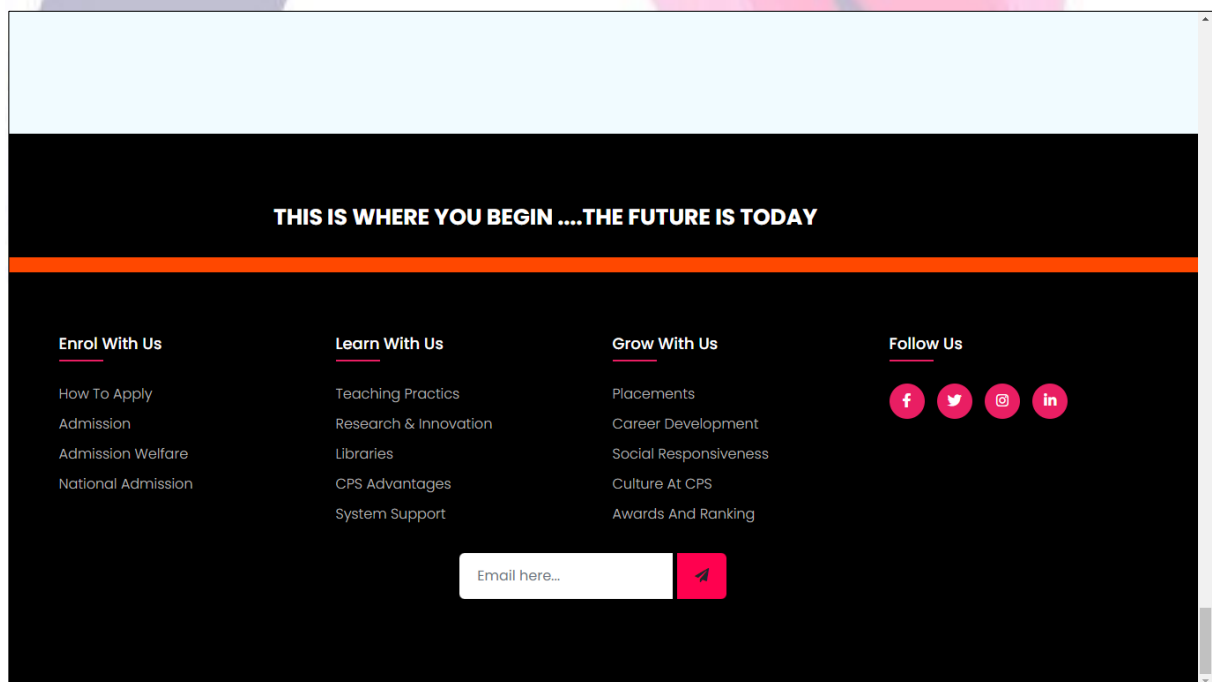

**Encouraging Environment**

The presence of the best brains and good number of students together give ample opportunity for more fruitful discussions in the classroom. An intellectually pleasant and progressive environment is created which inspire and gear up the coming generation.

## Strive for Excellence..

The hallmark of this institute is not to walk on beaten paths but to strike new routes, to be seconds to none but to be the first to respond to the changing needs of curriculum , by taking up tasks which are necessary but which nobody has taken up yet.

CA education is not only about what you learn, but also about how well you can practically apply what you have learned. Our focus is to build your strengths & interest, broaden your knowledge & sharpen your skills.

"A SOLID FOUNDATION of professional studies is of utmost importance with which one can enter & Succeed in future professional career. "
