Software Requirements Specification

1) Introduction

a. Background

- *Objective/Purpose of conducting a project :*

This Website has been designed to describe the school and all the things which are effectively describe the school and its management, infrastructure, activities, etc. Main purpose of this website is to provide an online platform which facilitates any information about the school to the visitors or the parents who require any further activities details or subject teacher details as per their requirement. Another objective of my website is for those who are interested to become a part of this school, they can be reach to the school from anywhere or can contact us through email or mobile. The website is Descriptive ; it contains various info about the school.

- *Scope of project :*

This website helps in publicity of school and with this website we will be able to Connect with more & more people and they will know about our school better. The conversation between them (visitors and the school) will be easy through the Website. Through the conversation my client will get knowledge about how they Will increase school facilities, technology and other important things and then Admission will also be increase..

- *Application / Motivation [Why we need to develop this software?] :*

In previous when the school is not available on online; most of the peoples don't Even heard about the school and this is cause for lack of admissions . Also the students who wanted to take admission also had to personally visit the school because there is no website or admission enquiry corner available on online of this school. From the previous method the school couldn't connect with more and more people. The communication between the parents or the visitors and us couldn't be possible in face-to-face, it will waste a lot of time of teachers or the other staff of school. So the website is the solution of there problems, it is time saving for both the visitors as well as the school and also the communication can be done in a better way and more elaborately, it can be beneficial to both my client as well as the visitors of website.

b. Overview

- *Overview of your project :*

As it is partially Descriptive the requirements that were specified that is needed to be simple, attractive and informative as well as consist a form which can help their visitors to join them and also admission enquiry corner. It should be as simple as possible but contain necessary information. It should also be attractive so the more and more people will take a look.

c. Environmental Characteristics :**I. Hardware Requirement**

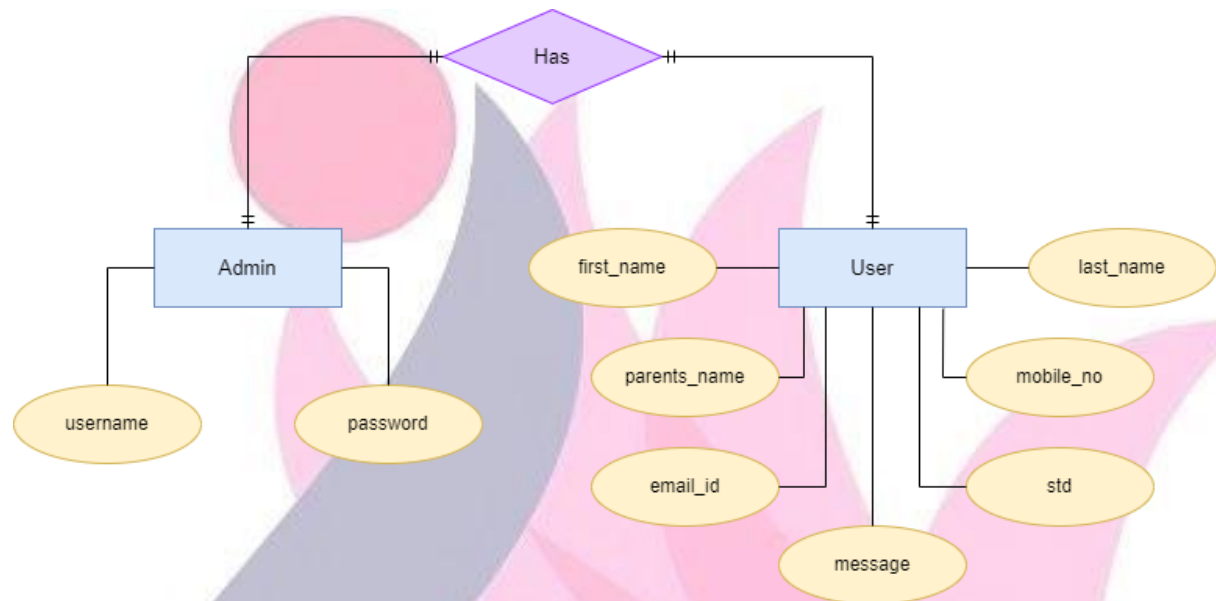

- 64 Bit Processor
- 4GB Memory space

II. Software Requirement

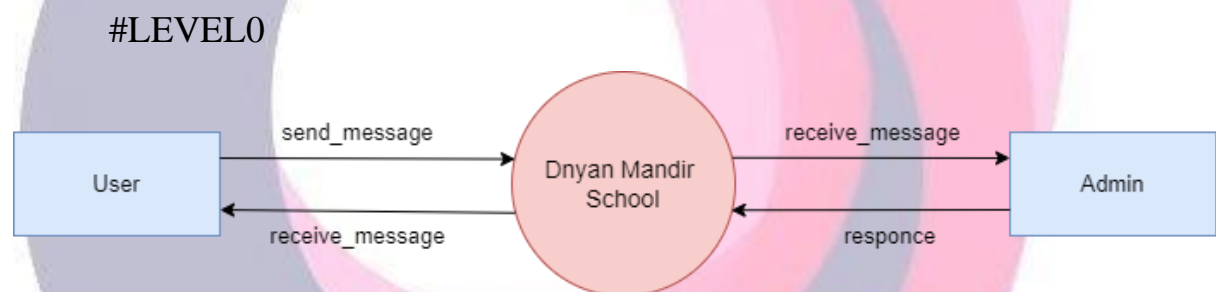

- Xampp Stack
- Visual Studio Code
- Microsoft Edge, Google Chrome

ABOUT US

Welcome to Dnyan Mandir Primary School !

Dnyan Mandir Marathi-English Primary School was established in 2006 and it is managed by the Pvt. Unaided. It is located in Urban area of SURAT CORPO. block of SURAT district of Gujrat. The school consists of Grades from Nursery to 10. The school is Co-educational and it have an attached pre-primary section. We are here for you from 15+ years and giving our best results! Since opening our students examination results have risen to their highest ever levels and our school enjoys an excellent reputation for exemplary behaviour and outstanding student leadership. We combine traditional values (We expect every child to "Learn, Engage & Respect") with cutting edge technology.

MISSION

We are committed to providing a positive learning environment that advocates considerate, responsible, and emotionally healthy behaviors. Each individual student will feel a part of the Central community, which promotes positive behavioral development.

VISSION

To educate all students to the highest levels of academic achievement, to enable them to reach and expand their potential, and to prepare them to become productive, responsible, ethical, creative and compassionate members of society!

GOALS

Be SMART
 S = Specific. Vague goals like "be more fit" are hard to accomplish because you don't know what the end result actually looks like
 M = Measurable
 A = Achievable
 R = Relevant
 T = Time-bound

About us (2)

School & Academic (1)

School & Academic (2)

any piece of writing. Keeping this in mind, English Recitation Competition was organized for Grade Fledglings. Children astonished everyone with their voice modulation and amazing memorizing skills.

Story-writing

It enhances one's memory and improves brain health. Writing helps in organising one's thoughts and express them in the form of words. It is a highly beneficial tool for expressing their feelings. Beauty of stories is that it can enhance the creativity of the kids and let their imagination take shape.

Preparing Charts

The students prepared charts on themes like retail selling skills, role of IT in retailing, future of retail and logos of popular retail brands.

Debates

- 1) Debate participation promotes problem solving and innovative thinking, and helps students to build links between words and ideas that make concepts more meaningful.
- 2) Debate students are taught to synthesize wide bodies of complex information, and to exercise creativity and implement different ways of knowing.

School & Academic (3)

BEYOND ACADEMIC

Sports

The school has provisioned for two Lawn Tennis Courts, a basketball court, football field, cricket pitch, swimming pool, table tennis equipment etc....

Play zone with various play wares has been catered for small children.

Provision for skating, gymnastics, yoga and various indoor games has been catered for.

The well- qualified Physical Training Instructors will always present to give tips and for coaching in all the sports.

Music

Help develop powerful expression of thoughts and emotions in creative and inspiring ways. The school provides a platform for vocal (Western and Indian) as well as instrumental music.

Dance

The Department of Dance of our School has its own heritage value. The students learn various Indian classical dance and western dance forms. The department works to hone the ability, skill and confidence of the students.

School & Academic (4)

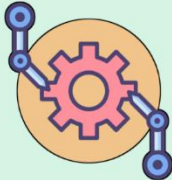

Clay Modelling

This is an important part of our curriculum, both at the pre primary and the primary level. It helps develop the fine motor skills and give expression to abstract ideas. It further helps a child visualize and conceptualise on a 3 dimensional sphere.

Assemblies

Assemblies can build experiences that will go a long way towards children learning about values, religious festivals, special days, songs and other information. Our class assemblies serve as a place not only for developing confidence but also for developing social, interpersonal and public speaking skills.

Celebrations

We at the our school celebrate all festivals with the aim of making the child aware of the reason behind festivities and mutual respect to all regardless of caste or religion. The new term beginning in April sees children being regaled with tales of Lord Mahavira and Buddha, Good Friday and Id interwoven with Sanskaras of ahimsa and non-violence, thus laying the foundation for making our country a role model for multicultural democracy.

OUR FACILITIES

Space and Size of Classrooms

Overcrowded classrooms often lead to reduced student engagement and improper learning. Teachers also find it difficult to manage an overcrowded class. Every student is not able to get the required attention. So, every classroom should have moderate number of students. Additionally, it should be spacious enough to offer adequate and personal space for the students.

Computer Laboratory

With these factors, parents and schools must ensure that they provide the aforementioned list of basic school facilities to students for their well-being along with quality education. Computer education is essential for today's generation, so it should be available to all the students.

Installation of CCTV

Everywhere in school, each classroom, corridor, corner of school we have CCTV cameras. The CCTV cameras always be on and be continuously monitored. So that anything happens in a school that can be seen by anyone. Placed cameras at noticeable places throughout the school take advantage of school safety.

Facilities (1)

Purified Drinking Water Facilities

The school has the facility of water filter & cooler to provide the students with pure, hygienic & cooled drinking water.

**Medical Centre**

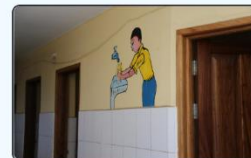

The school has a well-equipped health unit, manned by a full time doctor and a qualified nurse. We strive to provide our students a safe and secure environment, free from any health hazards. In the case of accidents or emergencies, the medical centre is well equipped to provide sufficient first aid.

Well-Maintained Toilets

Adequate toilet facilities assume great importance in the school premises and they need to be constructed as per the number of students enrolled. In the 21st century, many schools still don't have an adequate infrastructure that hinders the overall growth of the students. Regular cleaning and washing of the toilets is essential to avoid bacteria and infections.

**Facilities (2)****Well-Maintained Toilets**

Adequate toilet facilities assume great importance in the school premises and they need to be constructed as per the number of students enrolled. In the 21st century, many schools still don't have an adequate infrastructure that hinders the overall growth of the students. Regular cleaning and washing of the toilets is essential to avoid bacteria and infections.
